

As part of the ongoing review of the work of the Learning Disability Partnership Board Dorset County Council has asked People First Dorset to work in partnership with them to review its function, with the potential of us taking over the running of the board later this year.

A consultation process will be undertaken by us over the next few months. We will be speaking to our members, family and carers and professionals to learn more about what people would like to see from the board moving into the future.

The results of this consultation will be delivered to senior executives in the council and health and the partnership board.

We hope by undertaking this review we will be able to update the board's function, making it fit for the future and to ensure it continues to support the improvement of lives for people with learning disabilities within Dorset.

Please note this consultation will not affect the dates of all other partnership board meetings.

If you have any questions, then please do not hesitate to contact Elly Layfield at People First Dorset, elly@peoplefirstdorset.org.uk
